

CAMcraft VC61 6.1m Sports Fisher

The VC61 V-Nose Centre Console was designed as a versatile, comfortable boat suitable for coastal fishing and diving. It has a large cockpit for fishing, a forward casting platform and full beam swim deck for divers.

The design is a modified hard chine v-nose hull with built-in dropped chine strakes. A generous waterline beam and long entry combine with a gentle chine line and 13° deadrise. This hull is easily driven, exhibits good seakeeping and good stability at rest and under way.
