

02-35 18.3m Fast Lobster Boat

This design is a hard chine planing hullform with a deep fine entry running to a 15 degree deadrise at midships and 5 degrees deadrise at the transom by a gentle 2.75 degree rise of keel. This bottom form yields a balanced compromise between low resistance (easily driven) good sea keeping and ride, stability and load carrying. A second knuckle in the topsides allows increased flare and deflects any “green” water in heavy going. This combination of features addresses the requirements of a modern workboat operator. The vessel is designed to USL Code 3C - Seagoing Fishing Vessel for use in all operational areas up to and including Restricted Offshore Operations.

PARTICULARS

Length Overall:	18.4 m
L(USL):	18.3m
LWL:	16.68m
Beam (Max):	5.2 m
Beam (WL):	4.47m
Draft:	1.54 m
Fuel Capacity:	4200 litres (Nom)
Propulsion:	750-1200 bhp high speed diesel
