

07-65 10m Pearling work Boat

The design is a hard chine monohedron form with a fine entry fairing to a moderate 14 degree deadrise. A built in strake at the chine provides lift and deflects spray. The hull has good performance, a soft ride and is very dry. These boats work offshore with a crew of four cleaning shell in deep water therefore stability is paramount. A huge clear work deck makes the boat suitable for many roles. The vessel is designed to USL Code 3C - Seagoing Fishing Vessel for use in all operational areas up to and including Restricted Offshore Operations.

PARTICULARS

Length Overall:	10.77 m
LWL:	8.9m
Beam:	3.3 m
Design Draft:	0.4 m
Fuel Capacity:	700 litre
Propulsion:	Yanmar 6LYA-STP/ ZF220/HJ292
