

08-71 11.2m LCVP

The design is a moderate deadrise monohedron with wide waterline beam for maximum stability and load carrying. The use of a conventional boat's bottom with a reasonable entry rather than the more usual "scow" bow allows good performance and handling, better seakeeping with a softer ride and a "dry" boat. The LCVP carries 30 equipped troops at 32+ kts.

PARTICULARS

Length Overall:	11.2 m
Length Overall (Hull):	10.24m
LWL:	9.17m
Beam:	3.2m
Design Draft (Hull):	0.42 m (Lightship)
Fuel:	400L
Propulsion:	CUMMINS 6BTA5.9-M (315bhp@2600rpm) driving HJ274 w/jets through ZF220 g/boxes
