

10-78 24m LCU

The design is a moderate deadrise monohedron with wide waterline beam for maximum stability and load carrying. The use of a conventional boat's bottom with a reasonable entry rather than the more usual "scow" bow allows good performance and handling, better seakeeping with a softer ride and a "dry" boat. The LCU carries 2 tanks or 100 troops at 35kts.

PARTICULARS

Length Overall:	24.35 m
Length Overall (Hull):	21.9m
LWL:	19.45m
Beam:	6.1m
Design Draft (Hull):	0.75 m (Lightship)
Fuel:	3400L
Propulsion:	Twin CAT C32 Acert (1600bhp@2300rpm) driving HM271 w/jets through ZF3050 g/boxes
